

YOUNG MEN WANTED

CARENA IS WAITING FOR A STEM CELL TRANSPLANT. ALTHOUGH CARENA HAS BEEN IN REMISSION FROM LEUKAEMIA FOR NEARLY TWO YEARS, WITHOUT A LIFESAVING TRANSPLANT, SHE COULD RELAPSE AT ANY TIME.

There are 1,600 people in the UK in need of a lifesaving stem cell transplant. Anthony Nolan is looking for 10,000 young men aged 18-30 to join the stem cell register so that more lives can be saved. Joining is simple - sign up online to receive a saliva kit that you can then just post back.

To support this campaign, **John Hemming** MP has pledged to find ten young men to join the register.

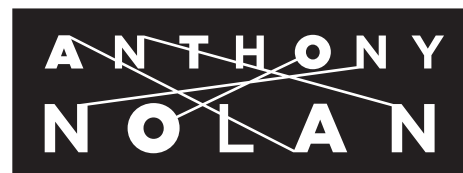

If you know a healthy; man; aged 18-30 please hand this flyer to him. And if you are a young man, please visit mp.anthonynolan.org and enter the code **VM4M** for more details.

Registered charity no 803716/SC038827

Elliot's donation of healthy stem cells helped a young girl

'FOR ME IT WAS A PIECE OF CAKE. I HAD SOME SMALL SIDE EFFECTS - A LITTLE BACK PAIN - BUT AFTERWARDS ON ONE OF MY RECOVERY DAYS, I WAS PLAYING GOLF.'

BE A MATCH, SAVE A LIFE
